# QUARTERLY SUMMARY OF AUSTRALIAN STATISTICS

JUNE, 1966

No. 260

PREPARED UNDER INSTRUCTIONS FROM THE RIGHT HONORABLE THE TREASURER

BY

K. M. ARCHER

COMMONWEALTH STATISTICIAN

## **AUSTRALIAN DECIMAL CURRENCY**

### **DOLLAR (\$) / CENT (c) SYSTEM**

On 14th February, 1966, under the *Currency Act 1965*, a dollar/cent decimal currency system, with one dollar equal to 100 cents, was introduced in Australia.

The relationship between pounds, shillings and pence, and dollars and cents, as prescribed in the Act, is as follows:—

1 pound = 2 dollars

1 shilling = 10 cents

1 penny =  $\frac{5}{8}$  of a cent

In this publication monetary amounts are shown in decimal currency except for some shipping freight rates and for some pre-decimal currency Australian bank notes outstanding.

## SECTION I.—POPULATION AND VITAL STATISTICS

NOTE.—*Estimated Population of States.*—For dates subsequent to the latest population Census the estimated population in each State represents the population ascertained at the Census plus natural increase and recorded net migration into the State since the Census. As complete records of interstate migration are not available, the estimated State populations so derived are approximate and are subject to revision when the actual population of each State is ascertained at the next Census. For some States such revisions were substantial after the Census of 1961. Particulars of population in this section are exclusive of full-blood Aborigines.

(a) The figures in this table are based on comprehensive data from the Population Census of June, 1961. Estimates for months subsequent to June, 1961, are derived from current Payroll Tax returns, returns of Government employment, other direct records of employment, and estimates of the number of employees not covered by these collections.

(b) Employees in Rural Industry and Private Domestic Service, and Defence Forces, are excluded.

(c) Includes employees engaged in selling and distribution, etc., as well as those occupied directly in manufacturing activity.

(d) Includes Law and Order, Religion and Social Welfare, Health Services, Education and Other Community and Business Services.

(e) Affected by industrial disputes.

(a) Refers only to disputes involving a stoppage of work of ten man-days or more. (b) Persons thrown out of work at the establishments where the stoppages occurred but not themselves parties to the dispute. (c) Includes the Northern Territory and the Australian Capital Territory.

NOTE.—Disputes not settled at the end of a year are included as new disputes in the figures for the following year. Disputes not settled at the end of a quarter are not counted in the number of disputes for the following quarter, but additional workers involved and working days and wages lost are included.

(a) In some cases, union members in the Territories associated with State organizations are reported under the heading of that State. The annual figures reflect, in part, progressive movements to more accurate reporting and the comparability of totals for the Territories is affected by this aspect.  
(b) Without interstate duplication. The State figures do not add to the Australian total because a union represented in more than one State is included in the figure for each State in which it is represented, but is counted only once in the Australian total.

## SECTION VI.—RETAIL SALES

NOTE.—Figures in the next two tables relate to retail sales of goods (as distinct from services, accommodation, entertainments, meals, etc.) by establishments selling retail goods from fixed premises (shops, rooms, kiosks, yards). The figures for the years 1956–57 and 1961–62 were obtained from Censuses taken in respect of those years, whereas figures for the other periods shown are estimates based on sample surveys.

All figures shown are on a basis comparable with the 1961–62 Retail Census.

### INSTALMENT CREDIT FOR RETAIL SALES FINANCED BY RETAIL BUSINESSES AND NON-RETAIL FINANCE BUSINESSES

The statistics in the following tables cover instalment credit schemes which relate primarily to the financing of retail sales of goods. In general "instalment credit" is defined as relating to schemes in which repayment is made by regular predetermined instalments, and includes Hire Purchase, Time Payment, Budget Account, and Personal Loan Schemes which relate primarily to financing of retail sales of goods. The first three tables include all such credit, whether it is advanced by retail businesses (including finance subsidiaries of retail businesses) or by non-retail finance businesses. The fourth table shows particulars for non-retail finance businesses only.

## SECTION VII.—OVERSEA TRADE

NOTE.—*Merchandise trade and Non-merchandise trade* have been re-defined in accordance with international standards recommended by the United Nations. Figures shown for 1964-65 and earlier years have therefore been revised to conform to the new definitions. The introduction of a new Import Classification and a new Customs Tariff has precluded publication of previous years' figures on pages 49 to 57.

(a) This series aims to cover all new and increased lending commitments entered into by banks, which require the approval of formal limit on a customer's overdraft account. For further details see *Banking Statistics*, Monthly Bulletin. (b) Excludes limits in respect of temporary advances to woolbuyers. Because of cancellations and reductions of limits resulting from the introduction, from 1st January, 1966, of a fee on unused limits, care should be taken in interpreting movements after that date.

## FINANCE COMPANIES: AUSTRALIA

The following statistics contain quarterly details of the lending operations of Finance Companies in Australia, compiled from monthly returns collected from these companies. Information on the scope of these statistics and the definitions of the items is contained in a supplement which is available on request, and is also included in the bulletin "Finance Companies, July, 1964–October, 1965", which, in addition, contains more detailed statistics. The "Finance Companies" covered in the statistics given below, in so far as they provide instalment credit for retail sales, are also included in the existing "Instalment Credit for Retail Sales" statistics, which will continue to be published.

Any discrepancies between totals and sums of components in the tables below are due to rounding.

## COMMONWEALTH SALES TAX—SALES OF GOODS AND TAX PAYABLE

NOTE.—An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. With certain specified exemptions, all goods sold by wholesale in Australia, including imports, are taxable. The returns do not relate to all wholesale trade, as vendors trading only in exempt goods are not required to furnish returns. They do not necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degrees. Insufficient information is available to enable adjustments to be made to the crude figures on this account.

(a) Represents the combined transactions of the Consolidated Revenue Fund and the Business Undertakings—Railways, Tramways and Omnibuses and Sydney Harbour Trust Section of the Maritime Services Board—included in the Annual Budget Papers. Adjustments have been made to exclude duplications. (b) To avoid duplication in aggregating particulars for the Commonwealth and States, the grand totals have been adjusted to exclude State payments to the Commonwealth in respect of pay-roll tax and Commonwealth payments to the States included in State Consolidated Revenue Funds in respect of interest on State debts, special grants, financial assistance grants, special financial assistance, grants to universities, tuberculosis capital expenditure and National Welfare Fund payments. There are other relatively minor payments for which adjustments have not been made and the adjusted figures are therefore still slightly overstated. (c) Includes repayable advances and payments to State trust funds. (d) Excludes interest, etc., charges. (e) Includes loss by Transport Commission and working expenses of Metropolitan Transport Trust.

(a) Includes:—Supplementary assistance; amounts paid to benevolent homes for maintenance of pensioners and to pensioner inmates of these homes; and allowances to wives of invalid pensioners. (b) Included in figures for State in which pensioner is ordinarily domiciled.

NOTE.—Age pensions are payable to women 60 years of age and over and to men 65 years of age and over, invalid pensions are payable to persons who are permanently incapacitated for work or who are permanently blind. Since 14th October, 1965, the maximum rate is \$12 for single pensioners and a married pensioner whose spouse is not receiving a pension, tuberculosis allowance, unemployment, or sickness benefit. The rate for married couple pensioners is \$11 each. An allowance is also payable for the non-pensioner wife and children of an age or invalid pensioner, and a guardian's allowance is payable to a single pensioner with dependent children. Age and invalid pensions (except those paid to blind persons) are subject to a means test on income and property. Supplementary assistance of \$2 a week is available to pensioners who pay rent and who are considered to depend entirely on the pension.

(a) A widow who has at least one child under 16. (b) A widow who is not less than 50 years of age and is without children under 16, a widow without children who is in need for not more than 26 weeks after the death of her husband, or until the birth of her child if she is pregnant. (c) Includes supplementary assistance and, from 8th October, 1963, a mother's allowance of \$8.00 a fortnight for class "A" widows. (d) Included in the figures for the State in which the pensioner is ordinarily domiciled.

NOTE.—Widows' pensions are subject to a means test on income and property. Since 5th October, 1965, the rates are: Class A, \$16.00 a week and \$1.50 a week for each child under 16 years and each full-time student child up to 21 years of age. Other widows receive \$10.75 a week. A supplementary assistance of \$2.00 per week is available to pensioners who pay rent and who are considered to depend entirely on the pension.

(a) Teachers-in-training are generally excluded. (b) The methods used for calculating equivalent full-time units of part-time teaching vary from State to State, between government and non-government schools and between primary and secondary schools within States. For most schools the information is based on either the total hours worked or total number of class periods taken in a week by part-time teachers in relation to the normal hours worked or periods taken by full-time teachers. (c) A large proportion of part-time male teachers in Victoria is engaged in junior technical schools. A teacher is included as part-time if his teaching time at a junior technical school is less than 32 hours per week. (d) Unqualified teachers and teaching assistants at mission schools are excluded.

(a) Includes, in addition to wages at award rates, earnings of salaried employees, overtime earnings, over-award and bonus payments, payments made in advance or retrospectively during the periods specified, etc.

(b) Total wages and salaries, etc., divided by total civilian employment expressed in male units. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings. As it is not possible to estimate the ratio of female to male earnings in the several States, the same ratio has been used for each State. Because the actual ratio may vary between States, precise comparisons between average earnings in different States cannot be made on the basis of the figures above.

(c) Includes Australian Capital Territory.

(d) Includes Northern Territory.

NOTE.—Quarterly figures are affected by seasonal influences. Comparisons as to trend are generally best made by relating complete years or corresponding periods of incomplete years. However, from December quarter, 1963, comparisons with the corresponding quarters of earlier years are affected by additional prepayments arising from extensions of annual leave from two to three weeks. Indexes of average weekly earnings, seasonally adjusted, are shown in the next table.

(a) See footnote (a) to table above.

(b) Average earnings per employed male unit. Based on Payroll Tax returns and other data.

(c) The index for manufacturing industries for the years 1955-56 to 1964-65 is based on the average earnings of male wage and salary earners employed in factories as disclosed by annual Factory Censuses. The figures from September quarter, 1965 are interim estimates based on Payroll Tax returns and are subject to revision when the Factory Census for 1965-66 is tabulated.

## INDEXES OF MINIMUM WAGE RATES AND HOURS OF WORK

NOTE.—The indexes of weighted average minimum weekly and hourly wage rates and standard hours of work shown on this and the following two pages are based, in the main, on the occupation structure existing in 1954.

Each of the occupations included in the indexes is individually weighted. From the wage rates and hours of work for these occupations, weighted averages are calculated for each industry and for all groups.

In the following tables the weighted averages so calculated are shown in dollars and cents and also as index numbers with the weighted average for the year 1954 as base (= 100).

For details of wage rates and index numbers from 1939 reference should be made to the following Statistical Bulletins:—S.B. 123, *Minimum Weekly Wage Rates, 1939 to 1959*; and S.B. 31, *Minimum Wage Rates, January, 1960 to June, 1963*. Figures subsequent to June, 1963 will be found in the monthly bulletins, *Wage Rates and Earnings*, commencing with the June, 1965 issue.

(a) Commonwealth Court of Conciliation and Arbitration prior to 30th June, 1956. (b) Rates operative from beginning of first pay-period commencing in month shown or commencing on or after the date shown. (c) Automatic adjustment of basic wages in accordance with variations in retail price index numbers discontinued.

NOTE.—Since December, 1950, the female basic wage has been 75 per cent of the corresponding male rate; previously it had ranged between 54 per cent and 75 per cent.

**STATE BASIC WAGES**

In New South Wales automatic quarterly adjustments to the basic wage were discontinued following legislation passed in October, 1964, and Commonwealth basic wage rates were adopted, retrospective to 19th June, 1964. State basic wages are not declared in Victoria and Tasmania, but Wages Boards, which determine minimum rates to be paid in various industry groups or callings, now generally adopt Commonwealth rates. In Queensland, the industrial authority may declare a basic wage only after an inquiry. In South Australia the rates have been the same as Commonwealth rates since 1950. The industrial authority in Western Australia determines the basic wage each quarter after considering retail price index numbers. In all States, since May, 1961, the basic wage for adult females has been 75 per cent of the adult male rate.

## AVERAGE RETAIL PRICES

Average retail prices of food and groceries as previously published for capital cities and principal towns are now collected monthly in the capital cities only. These prices are available on request from the Commonwealth Statistician.

## WHOLESALE PRICE (BASIC MATERIALS AND FOODSTUFFS) INDEX

Commodities in this index are priced in their primary or basic form wherever possible. The prices used have, in the main, been obtained directly from manufacturers and merchants and, with a few important exceptions, from Melbourne sources. The weighting system adopted is based on estimates of the average annual consumption of the commodities in Australia during the years 1928-29 to 1934-35 inclusive. Work is proceeding on the preparation of new series of wholesale price index numbers. Meanwhile the present series continue to be compiled on their existing basis, which has become increasingly affected by changes in usage, changes of category as between "imported" and "home produced" for some commodities, and changes in industrial structure.

(Base of each Index: Average of 3 years ended June, 1939 = 100)

(a) Represents only such imported commodities as are included in the Wholesale Price Index and does not measure changes in prices of all imports.

## FARM PRODUCTION PRICE INDEXES

The annual indexes shown in the following table relate to average "prices" of farm products realized in the principal markets of Australia. The "price" data used are average unit values for the total quantities of the relevant commodities produced or marketed in each year and the indexes therefore measure both the effects of changes in prices (as such) and of variations in the quality, type, usage, etc., of products marketed. The indexes for any year relate to the average values of farm products produced or marketed in that year, irrespective of the periods in which payment is received by producers.

The indexes shown below are the Revised Series (December, 1952) in which average quantities of each product marketed in the period 1946-47 to 1950-51 have been used as fixed weights.

The preliminary indexes for 1964-65 are based mainly on the recorded or estimated movement in average values for the major farm products. They will be reviewed from time to time as further "price" data become available.

## SECTION XIII.—STATISTICAL SUMMARY

## STATISTICAL SUMMARY—AUSTRALIA, 1901-02 to 1964-65

NOTE.—(1) In most cases where figures are available back to 1861, these were shown in the September, 1953 issue of the *Quarterly Summary of Australian Statistics*, pages 112 and 113.

(2) The statistics in this summary relate in general to the periods shown in the table headings; where the statistics relate to other periods, this is indicated in footnotes.
